Attn: Supervisor Jeff Gorell and Municipal Advisory Committees

- The Ventura County Fire Department's Fire Prevention Bureau has mailed notifications to the owners of about 18,000 properties with the highest fire hazard severity ratings as part of our Fire Hazard Reduction Program. The notices remind the owners of their responsibility to manage defensible space by clearing dead vegetation, cleaning gutters and rooftops, mowing grasses and raking and removing any of the clippings by June 1. These responsibilities apply to anyone living in the very high and high zones identified by Cal Fire.
- May is Water Safety Month. VCFD is partnering with agencies across the county to encourage people to stay safe while they enjoy the water. Teach children to swim, keep pools separated by lockable gates or doors, monitor children while they swim and wear lifejackets whenever you go boating.
- VCFD will graduate its next academy of probationary firefighters on June 6 during a ceremony at the Regional Training Center in Camarillo.
- A dedication ceremony for new Fire Station 34 in Thousand Oaks is scheduled for June 11.

16	1/30/2025	Public Safety	Roads & Transportation	Ask the Ventura County Sheriff to continue to enforce laws that regulate the use of E-bikes, especially early and later evening hours, in the area surrounding Conifer Street (west and east of Kanan Road). Note: this concern was raised by Mr. Steven Kozel during the January 20, 2025 MAC meeting.	Update 4/16/25: Bike enforcement in Oak Park has and will continue to be conducted by CHP. Update 3/20/25: There have been recent observations along Kanan and elsewhere. CHP acknowledged they have received complaints about reckless bike riding, and will continue to patrol area, with bike enforcement conducted the week of 3/17/25. The community is encouraged to continue to report violations as they occur. 17	1/30/2025	Public Safety	Open Space	Ask the RSRPD Board to consider prohibiting public access to its open space areas during high wind/ Red Flag Warning events. Note: this concern was raised by Mr. Steven Kozel during the January 20, 2025 MAC meeting.	Update 4/16/25: Brian Trushinski (MAC Chair) spoke with RSRPD staff (Zach Miller) and was told that the District's Board of Directors discussed this issue and decided not to take action. Enforcement is expensive, their staff resources are fully committed to monitoring and responding to wildfire activities, they receive numerous citizen complaints about the proliferation of signage in the parks and at trailheads. The Board intends to follow what the Santa Monica Mountains Conservancy's policy is which is not to take action on this matter. If the Conservancy changes its policy, the District will consider the same. Update 3/20/25: RSRPD works in partnership with the Office of Emergency Services and if there are advisories in place per OES there would be access closures. Brian Trushinski will also be following up with RSRPD to explore other solutions. Update 2/27/25: Awaiting call from and discussion with Dan Parannick.	Low	RSRPD Liaison	Closed	4/16/2025

19	1/30/2025	Public Safety	Roads & Transportation	Advisory Council member, Brianna Adams, requested that the no left hand turn, from Los Arcos onto Kanan, restriction be reviewed.	Update 3/20/25: The prior decision, based on the traffic safety study conducted, will not be modified at this time. Update 2/27/25: Per the Public Roads and Transportation Traffic Engineering Manager, Matt Litvinas: After receiving several complaints regarding the intersection, a traffic study was performed in 2022. For reasons that include the restricted sight distance in both directions on Kanan as a result of the existing road geometry, combined with the average speed on Kanan Road, the number of vehicles making that left turn from Los Arcos compared to the extended cue of vehicles turning left from Kanan onto Los Arcos, and a safe left turn option at the adjacent signalized Churchwood intersection, it was determined that prohibiting the left turns from Los Arcos onto Kanan was the appropriate action to increase the safety at the intersection.
